

## **Joint Projects**

The following is a list of things that have resulted directly and indirectly from the conference and that the newly formed “Reconnections” movement carries forward:

- A one page [cross marketing piece](#) was put together to be used by all four organizations. Representatives from the four organizations created this jointly.
- OBI newsletter was dedicated to the theme of “Kurt Hahn” and included reflections and articles generated from the conference.
- OBI is assisting Round Square in the area of risk management and safety policies and procedures.
- Two UWC schools have initiated a joint expedition – the first time any UWC schools have worked jointly on a project together.
- Pearson College, UWC of the Pacific, is working with Outward Bound Canada to deliver high school credits in its summer program.
- Round Square, UWC and International Award representatives attended and presented at the OBI conference in October 2004.
- Outward Bound representatives will be attending the Round Square International conference in Australia, September 2005.
- There have been two meetings between the international offices of the four organizations to discuss how to work more collaboratively.
- The Kurt Hahn website, [www.kurthahn.org](http://www.kurthahn.org), now includes a section dedicated to the conference.
- All international websites have links to each other’s website.
